INSTRUCTIONS

Site and Date: List the site name and date of meal service.

Meal Type: Check the meal type provided (breakfast, lunch, supper, AM snack or PM snack).

Today's Menu: Write the daily menu. For information on the CACFP meal pattern requirements, see [CACFP Meal Pattern \(October 1, 2017 Through September 30, 2019\)](#) and the Connecticut State Department of Education's (CSDE) [Meal Pattern Requirements for CACFP Child Care Programs](#) Web page.

Number of Meals Served: Complete this section **after** the meal service. Indicate the number of reimbursable meals served to each age group, and the number of nonreimbursable meals if applicable, e.g., meals for CACFP staff and incomplete meals served to children.

Menu Item (Column 1): List all planned menu items. Include noncreditable foods (e.g., desserts and condiments), and any substitutions. For more information, see the CSDE's handout, [Noncreditable Foods in the CACFP](#).

Recipe Number or Food Product (Column 2): Indicate the recipe (and recipe number, if available) or name of food product used. Include the form (e.g., fresh, frozen or canned) and packing medium (e.g., canned in juice or light syrup, or frozen with added sugar).

Serving Size and Amount Prepared (Column 3): Indicate the serving size and number of servings of each planned menu or food item served to each age group, and to CACFP staff, if applicable.

Total Quantity of Food Used (Column 4): Indicate the total amount of food used to prepare the number of planned meals indicated in column 3. For single-serving items like hamburgers or oranges, record the total number of items or servings prepared, e.g., 100 oranges, 250 servings of hamburgers. For all other items, indicate the amount of food used with as much detail as possible, e.g., "3 10-lb. boxes," "2 #10 cans" or "1½ recipes."

Amount Leftover (Column 5): Indicate the amount of food leftover for each menu item. If the item can be counted, record the number, e.g., 10 oranges. If the item can be measured in volume, record the estimated amount, e.g., "half of a full-size steam table pan" or "2 quarts." Use consistent measurements. For example, if the total quantity of food used (column 5) is 150 hamburgers, indicate the number of leftovers (e.g., 10 hamburgers), not the weight (e.g., 2 pounds).

Total Amount Served (Column 6): Subtract *Amount Leftover* (column 5) from *Total Quantity of Food Used* (column 4) to determine the total amount of food served.
